

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Place

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the  
The Texas Company's State of New Mexico "AB" Well No. 1 in NW 1 of SE 1  
 Company or Operator Lease  
 of Sec. 6, T. 18 - S, R. 35 - E, N. M. P. M., Vacuum Field,  
Lea County.

### FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

The well was re-acidized on 6-4-40 with 2000 gals. of Dowell acid with 265' of jelly seal in the bottom of the hole in an attempt to increase the gas and make the well flow. On 6-6-40, tubing was pulled and re-run with 9 -2" Merla Type "A" flow valves included on the string; the well produced 107 bbls. in 8 hrs., swabbing and flowing through the tubing, but would not flow steadily.

We now desire permission to gas lift this well which does not have sufficient gas to flow itself. The required additional gas will be obtained from our State of New Mexico "M" #1 well.
