Re: Deviation Calculations - State "AN" Well No. 3, Unit G, Section 7,
Township 18S, Range 35E, Undesignated (Vacuum Abo) Pool, Lea County,
New Mexico.

Dear Mr. Ramey:

On running initial completion logs on the above subject well, we found that the base of the Abo Reef had not been drilled at 8860'. This necessitated drilling Well No. 3 to 8985'.

Please find attached corrected deviation calculation for the additional hole drilled. This will supplement our letter of April 18, 1962. The accumulative deviation from surface to total depth of 8985' was 304.20' which calculates to be bottomed within Unit G boundaries.

Respectfully,

TIDEWATER OIL COMPANY

C. L. Wade
C. L. Wade,
Area Superintendent
