LEASE Reeves "A" WELL NO. 3-26 UNIT 0 S 26 T 18-S R 35-E

DATE WORK PERFORMED - POOL South Vacuum (Devonian)

This is a Report of: (Check appropriate block) ☐ Results of Test of Casing Shut-off
☐ Beginning Drilling Operations ☐ Remedial Work
☐ Plugging ☒ Other Current Status Report

Detailed account of work done, nature and quantity of materials used and results obtained.
There has been no change in the status of this dry hole in the last six months. No work has been performed and the well has not been plugged. We are now in the process of investigating the possibilities of converting the well to a salt water disposal well to dispose of the produced formation water from our South Vacuum Unit leases. If our research proves successful and approval can be obtained, the conversion will be made in the near future.
