Houston, TX 77001

SUBJECT: North Hobbs GB SA Unit Sec. 23 #231 (K-23-18-37)

Gentlemen:

It appears, after reviewing the CBL on the above-captioned well, that you have just slightly over 100 feet of good bond above the top injection perforation at 4120 feet. We think this may not be adequate coverage and that you may need to consider a block squeeze.

Please let us hear from you concerning this matter.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I

JS/ED
