REGULATIONS

This form shall be furnished to the QUADREPLET with the District Office of the Oil and Gas Commission concerning the unit from which oil or gas is produced. The permit certificate shall be given to the transporter authorized to transport oil and gas from the unit. After said certificate has been approved by the Oil Conservation Commission, the copies will be forwarded to the transporter, one copy returned to the producer and two copies retained by the Oil Conservation Commission.

A new certificate shall be given to cover each change in operating ownership and each change in the transporter designated. In the case of a temporary change in the transporter involving a temporary allowance production for one proration period the operator shall submit a temporary certificate to the Oil Conservation Commission District Office. The transporter authorized by the certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter. In addition, such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in said notice.

This certificate shall be cancelled and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil and gas from the property named therein and shall remain in full force and effect until:

- a) A change in ownership changes
- b) The transporter is changed or
- c) The permit is cancelled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases, when this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil or gas, show under "REMARKS" the name of the owner or operator and the transporter previously authorized to transport oil or gas.

A separate report shall be filed to cover each producing unit designated by the Oil Conservation Commission.
