The Texas Company,
Producing Department,
Box 983,
Fort Worth, Texas.

Gentlemen:

I am enclosing a list showing the report requirements of our department which may make it a little easier to keep up with just what we desire on drilling wells.

I realize that it is rather hard to keep up with just what this department wants in the way of reports, so I am furnishing this list with all approved "Notice of Intention to Drill New Wells".

Very truly yours,

Encl: Requirement list.

J. D. Hunter,
Oil & Gas Inspector.
