Mr. L. M. Barrows  
The Texas Company  
Fort Worth, Texas

Dear Mr. Barrows:

This is in reply to your letter of January 7th.

The first of the year Mr. T. A. Stancliff terminated his connection with the Department of the State Geologist.

For the time being, at least, and probably right along, the entire southeastern part of the State will be taken care of by Mr. J. D. Hunter, Box 522, Carlsbad, New Mexico. Forms and other data for the Hobbs field and other fields in the southeastern part of New Mexico, should be sent directly to Mr. Hunter.

Very truly yours,

EHW:F

E. H. Wells  
State Geologist
