Gentlemen:

We are returning without approval Form C-102, Notice of Intention to Plug, for your State WM "E" No. 1 in Section 31, T-18-S, R-37-E.

This program as outlined on the form is not acceptable. The cement plug from 2828' to 3075' should be extended deeper- to about 3090' to insure no possible future communication between the Penrose and Sever Rivers. Also it will be necessary that you place a 20-25 sack cement plug in and out of base of 8 5/8" casing to isolate the salt. The 30' cement plug at top of 8 5/8" will suffice.

Yours very truly,

OIL CONSERVATION COMMISSION

E. J. Fischer
Engineer, District 1
