Re: Unauthorized flaring of gas
Eumont Gas Pool, Lea County

Gentlemen:

Reference is made to Forms C-110 submitted on November 21, 1955 for your State "O" Well No. 1-N (31-18S-37E) an oil well in the Eumont Gas Pool, and your McMillan Well No. 1-N (29-18S-37E) an oil well in an undesignated area adjoining the Eumont Gas Pool. You did not indicate the disposition of the gas on either of the wells, but it is assumed you are flaring same, as it is some distance to a low pressure gas connection.

Please request separate permission to flare gas from each of the above mentioned oil wells, if that condition persists. A memorandum outlining the proper filing for such exceptions is attached for your use.

Very truly yours,

Warren W. Mankin
District Engineer
