

XXXXXXXXXXXXXXXXXXXX

Box 522
Carlsbad, New Mexico
January 4, 1936.

Mr. George W. Talbott
809 3rd Avenue
Los Angeles, California

Dear Mr. Talbott:

Would you kindly give me information regarding your National Securities Linam No. 1 Well in Sec. 33, T. 18 S., R. 37 E.?

It is rumored that Mr. Linam has taken over this property.

Would you please furnish me with the information regarding the status of this property?

Very truly yours,

FJV:t

F. J. Vesely,
State Oil & Gas Inspector.

Mr. Talbott's reply:

Replying to your inquiry regarding my well known as the National Securities Linam No.1, I beg to advise you that I expect to be in Hobbs by the end of this month with the intent of either giving it another shot of acid and trying to get it on production or plugging it. I have made no deal with Mr. Linam to take over this property, and I know of no interest he has in the property other than that of lessor.

As soon as I get to Hobbs and decide what to do, will notify you of my plans.

Thanking you for the letter and for past courtesies, I am

George W. Talbott.

Letter sent to Mr. Talbott

GOVERNOR CLYDE TINGLEY, *Chairman*
STATE GEOLOGIST E. H. WELLS
COMMISSIONER OF PUBLIC LANDS
FRANK VESELY, *Secretary*

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

December 30th, 1935.

Mr. F. J. Vesely,
State Oil and Gas Inspector,
Carlsbad, New Mexico.

Dear Pete:

I am glad to have the information given in your letter of December 22nd for the National Securities Well. Enclosed is a copy of a letter to the Maryland Casualty Company in connection with the bond for this well. No doubt you will find this self-explanatory.

Will you kindly get in touch with Mr. Linam at your earliest opportunity and insist that he supply us with a Surety Company bond in the amount of \$5000.00, assuring proper plugging, etc. of this well. Enclosed is a form of bond that should be used in this connection.

Until the new Oil Conservation law became effective, we did not have much jurisdiction over fee land, but the situation is entirely different now. I feel sure the various penalties provided in the new law can be enforced if matters develop to that point. I suggest that you supply Mr. Linam with a copy of Circular 1, and that his attention be called to Rule 39 relating to bonds and to the penalties for failure to abide by the law and the rules and regulations of the Commission.

Very truly yours,

OIL CONSERVATION COMMISSION

El Paso, Texas.

Dear Sir:

RE: 2052 Bond, State of New Mexico
National Securities Oil Company

This is to advise you that I have heard from Mr. F. J. Vesely regarding recent developments at the National Securities Linam No. 1 Well in Section 33, T. 18 S., R. 37 E.

Mr. Vesely states that Talbott and Mullineaux deepened the well to 4806' and then plugged back to 4238'. After that they treated it with 3000 gallons of acid, but did not obtain any worthwhile results. Possibly there was a hole in the casing and most of the acid may have been lost instead of getting to the proper formation. Mr. Vesely understands that Mr. Virgil Linam (the fee owner) has taken over the property, but the well has not been plugged.

I am writing to Mr. Vesely, requesting him to get in touch with Mr. Linam, if possible have him supply this office with a bond, assuring that the well will be plugged according to the regulations of the Oil Conservation Commission. If Mr. Linam supplies us with such a bond, which will meet with the approval of the Commission, the bond of the Maryland Casualty Company then can be cancelled.

Very truly yours,

OIL CONSERVATION COMMISSION
