Mr. E. F. Wells
State Geologist
Santa Fe, New Mexico

Dear Mr. Wells:

Your letter of January 18th, indicated that drilling of this well would be started in the very near future and that in a short while, it would be known whether or not it could be made into a commercial producer. We are wondering if you have any information at this time as to whether or not work is still in progress or whether it has been abandoned and plugged to your satisfaction.

I would greatly appreciate your advices.

Very truly yours,

A. H. THOMPSON, MANAGER
