Dr. E. H. Wells
State Geologist
Santa Fe, New Mexico

Dear Dr. Wells:

This is in reply to your letter of April 6th, regarding the status of the Linam #1 well of the National Securities Oil Company (Talbot & Mullineaux), located in Sec. 33, T. 18 S., R. 37 E.

This well is to be treated with 6,000 gallons of acid in the very near future. In fact, I approved their notice of intention to acidize April 4, 1936.

Under the circumstances, the bond should be kept in force .

Very truly yours,

FJV:t

F. J. Vesely.
