

NEW MEXICO STATE LAND OFFICE
SANTA FE, NEW MEXICO

DEPARTMENT OF THE STATE GEOLOGIST
NOTICE OF TEST OF WATER SHUT-OFF

Notice must be given to the State Geologist or to the proper Oil and Gas Inspector at least five days before the test. It is desirable that a representative of the Department of the State Geologist witness the water shut-off before drilling into the productive sand whenever possible. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to sender. Submit this notice in duplicate.

Wink, Texas, N. Mex., March 2, 1933

Mr. E. H. Wells

State Geologist,
Santa Fe, New Mexico.

Dear Sir:

You are hereby notified that we intend to test the shut-off of water in State
Well No. 1 in SW/4 of Sec. 17, T. 18, R. 38,
N. M. P. M., Hobbs Oil Field Lea County,
on March 7, 1933 7" O.D. 24 lb. casing was landed in Line
formation at a depth of about 4050 feet on March 3, 1933
500 sacks of El Toro cement will be used cement were used.

The method used in placing the cement was as follows:

Halliburton Oil Well Cementing Company will be used, the plug method under pressure.

Fluid level will be bailed to a depth of 4050 feet and left undisturbed for at least 12 hours before your inspection.

Adjacent property owners have been notified as follows: Gypsy and Tidal will be notified today by letter day.
