### DETAILS OF PLAN OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

To not high pressure separator at either Poteral Bosons "A" [3 or Poteral Bosons S" A or both with measurementy gam regulators to supply gas at approximately 500 pounds working pressure for gas lift purposes. To install proper size tabing and measurement flow values in Poteral Bosons "B" [2, N. M. State "A" [2 and H. M. State "A" [3 to gas lift these wells with a minimum of gas. At the present time, N. M. State "A" [2 and H. M. State "A" [3 are produced by pumping and, unloss sutherity is granted to gas lift Federal Bosons "B" [2, it will be measurement this will on the pump. It is believed that these wells can be produced with a gas fixed imput Fatio of under 500 onbig fort of gas per barrel of Eindi. Authority is not requested to produce any will of growter than its presented allowed to.

## MISCELLANEOUS NOTICES

Submit this notice in triplicate to the State Geologist or proper Oil and Gas Inspector at least five days before the work specified is to begin. A copy will be returned to the sender on which will be given the approval with any modifications considered advisable or the rejection by the State Geologist or Oil and Gas Inspector of the plan submitted. The plan as approved should be followed and work should not begin until approval is obtained.

Approval to drill is given as outlined with the understanding that full compliance will be made with the "Requirements for Lessees" as outlined in section 2 of the "Operating Regulations to Gevern the Production of Oil and Gas."

Notify the U. 3. Geological Survey office, P. 0. Box 591, Roswell, New Mexico, on form 9-331a, of mudding, commenting, and water shut off tests a sufficient time in advance that an engineer of the Survey may be present.

Any change of the drilling plan, or the conditions of approval, masst have the written approval of the District Engineer before the change is made.
