OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Hobbs, New Mexico
(Place)

November 1, 1952
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the MORRIS LEASE

MORRIS R. ANTWEIL

(Company or Operator)

Well No. 1 in E
(Unit)

SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 21, T. 18S, R. 38E, NMPM, HOBBS Pool
(40-acre Subdivision)

County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

This well was drilled as a dry hole with no significant shows of oil or gas. The main San Andres pay swabbed 19 barrels of sulphur water per hour. It is the intention of this Operator to set a 25-sack common cement plug in the bottom of the casing which was set at 4100 feet. This will effectively shut off the San Andres formation. We further intend to set a 25-sack common cementplug at the point which the pipe is shot and recovered. We will set a 25-sack common cement plug in the top of the surface casing which has been previously cemented to the surface. We will file additional information when the plugging job has been completed.

Well was plugged as proposed in this report.

Approved 1952, 19.....
