Re: Casing leak on Morris A #1  
SW/4 SE/4 Sec. 2 T18S R38E  
Lea County, N. M.

Gentlemen:

On April 23, 1957 bradenhead pressures were observed on subject well. Between the 7" casing and the 5½" liner (hung from 0' to 592') and between the liner and 2" tubing there existed similar pressures of 150#. The 5½"-7" annulus was blown down in one minute to 20# and remained at 20#. On shut-in of the 5½"-7" annulus, pressure built up to 70# in ten minutes. On blowing down the 5½"-7" annulus, we actually killed the well. So, although there was a very slight vacuum on the 7" to 12½" annulus and although records show a prior leak at 318' had been squeezed with 1000 sacks of cement, we feel assured that there is a leak in the 7" casing below the 5½" liner and also that there is a leak in the 7" casing behind the liner in the interval from 592' to surface.

In the immediate vicinity of subject well, two fresh water wells are unfit for domestic use. This situation may or may not be caused by subject well. However, due to the critical situation of the fresh water supply in this area, and in accordance with the Rules and Regulations of the New Mexico Oil Conservation Commission (Rule 106 Sealing off Strata), you are hereby advised to make every effort to determine and repair such leak or leaks that are found to exist in subject well.

It will be necessary that you contact this office not later than June 10, 1957 of your proposed plan of repairing said leak(s) and to institute the actual work in the very near future.

Yours very truly,

OIL CONSERVATION COMMISSION

# OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

Noted for the  
Commission  
the following

The Commission has received information from the  
Department of the Interior, Bureau of Land Management,  
that the following lands are available for lease:  
1. A certain tract of land in the County of Santa Fe,  
State of New Mexico, containing approximately 100 acres,  
more or less, situated in the Township of 36 North,  
Range of 12 East, 10th Principal Meridian, Santa Fe  
County, New Mexico. The land is owned by the United  
States of America and is being offered for lease to the  
highest bidder for a term of years, not exceeding 10 years,  
at a rental of \$1.00 per acre per year, plus a royalty  
of 10% of the net proceeds from the production of oil,  
gas, or other minerals, if any, from the land.

2. A certain tract of land in the County of Santa Fe,  
State of New Mexico, containing approximately 200 acres,  
more or less, situated in the Township of 36 North,  
Range of 12 East, 10th Principal Meridian, Santa Fe  
County, New Mexico. The land is owned by the United  
States of America and is being offered for lease to the  
highest bidder for a term of years, not exceeding 10 years,  
at a rental of \$1.00 per acre per year, plus a royalty  
of 10% of the net proceeds from the production of oil,  
gas, or other minerals, if any, from the land.

3. A certain tract of land in the County of Santa Fe,  
State of New Mexico, containing approximately 150 acres,  
more or less, situated in the Township of 36 North,  
Range of 12 East, 10th Principal Meridian, Santa Fe  
County, New Mexico. The land is owned by the United  
States of America and is being offered for lease to the  
highest bidder for a term of years, not exceeding 10 years,  
at a rental of \$1.00 per acre per year, plus a royalty  
of 10% of the net proceeds from the production of oil,  
gas, or other minerals, if any, from the land.

Very truly yours,

Chairman

Secretary
