UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY
WASHINGTON, D. C.

REPORT OF THE COMMISSIONER OF PLANT INDUSTRY

For the year ending June 30, 1914

The following is a summary of the work of the Bureau of Plant Industry during the year ending June 30, 1914. The Bureau has been organized since June 30, 1913, and has since that time been engaged in the study of the various problems connected with the introduction of new plants into the United States.

The Bureau has been organized into three divisions: the Division of Plant Introduction, the Division of Plant Quarantine, and the Division of Plant Pathology. The Division of Plant Introduction has been engaged in the study of the various problems connected with the introduction of new plants into the United States. The Division of Plant Quarantine has been engaged in the study of the various problems connected with the quarantine of plants. The Division of Plant Pathology has been engaged in the study of the various problems connected with the pathology of plants.

DETAILS OF PROPOSED PLAN OF WORK

The following is a summary of the proposed plan of work for the year ending June 30, 1915. The Bureau has been organized since June 30, 1913, and has since that time been engaged in the study of the various problems connected with the introduction of new plants into the United States. The proposed plan of work for the year ending June 30, 1915, is as follows:

The Bureau has been organized into three divisions: the Division of Plant Introduction, the Division of Plant Quarantine, and the Division of Plant Pathology. The Division of Plant Introduction has been engaged in the study of the various problems connected with the introduction of new plants into the United States. The Division of Plant Quarantine has been engaged in the study of the various problems connected with the quarantine of plants. The Division of Plant Pathology has been engaged in the study of the various problems connected with the pathology of plants.
