

ILLEGIBLE

Carlsbad, New Mexico
May 24, 1934

Repollo Oil Company,
Box 1990,
Mt. North, Texas

Att: Mr. Harroun

Dear Sir:

This will acknowledge receipt of your
NOTICE OF INTENTION TO DRILL on your Grimes #3
located: NE/4 Sec. 28, T. 18 S., R. 38 E. and
State #1, located: NE/4 Sec. 19 T. 21 S., R. 38 E.

I am returning approved copies of these
requests for your files with a REPORT REQUIREMENT
LIST attached to each which will facilitate the
reports required by this department.

Our regulation requires operators to make
written notices at least five days prior to making
water shut-off test; I realize this is practically
impossible and have adopted a policy of asking the
operator to call me by telephone about 12 to 24 hours
prior to test and then make the written notice at
their earliest convenience. I would like to be
present during the tests and ask that you have your
superintendent call me.

Please be advised that Mr. W. A. Stancliff
is not with this department any longer and all reports
and request should be made to the writer who will in turn
check them and then transmit to the State Geologist.

Very truly yours,

J. D. Hunter,
State Oil & Gas Inspector
