

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS REPORT ON RESULT OF SHOOTING WELL REPORT ON RESULT OF TEST OF WATER SHUT-OFF REPORT ON RESULT OF ABANDONMENT OF WELL	REPORT ON DEEPENING WELL REPORT ON PULLING OR OTHERWISE ALTERING CASING REPORT ON REPAIRING WELL ACID TREATMENT OF WELL X

COMMISSIONER OF THE
BUREAU OF LANDS

MISCELLANEOUS REPORTS

During the year 1901, the Bureau of Lands has been engaged in a number of important projects, the results of which are reported in this annual report. The work has been carried on in accordance with the plan adopted at the beginning of the year, and has resulted in the completion of a number of important projects, the results of which are reported in this annual report.

The first of the projects completed during the year was the survey of the public lands in the State of California. This survey was completed in the month of June, and the results thereof are reported in the first of the miscellaneous reports. The second project was the survey of the public lands in the State of Texas, which was completed in the month of August, and the results thereof are reported in the second of the miscellaneous reports.

The third project was the survey of the public lands in the State of New Mexico, which was completed in the month of September, and the results thereof are reported in the third of the miscellaneous reports. The fourth project was the survey of the public lands in the State of Arizona, which was completed in the month of October, and the results thereof are reported in the fourth of the miscellaneous reports. The fifth project was the survey of the public lands in the State of Nevada, which was completed in the month of November, and the results thereof are reported in the fifth of the miscellaneous reports.

The sixth project was the survey of the public lands in the State of Utah, which was completed in the month of December, and the results thereof are reported in the sixth of the miscellaneous reports. The seventh project was the survey of the public lands in the State of Idaho, which was completed in the month of January, and the results thereof are reported in the seventh of the miscellaneous reports.

The eighth project was the survey of the public lands in the State of Montana, which was completed in the month of February, and the results thereof are reported in the eighth of the miscellaneous reports. The ninth project was the survey of the public lands in the State of Wyoming, which was completed in the month of March, and the results thereof are reported in the ninth of the miscellaneous reports.

The tenth project was the survey of the public lands in the State of Colorado, which was completed in the month of April, and the results thereof are reported in the tenth of the miscellaneous reports. The eleventh project was the survey of the public lands in the State of New York, which was completed in the month of May, and the results thereof are reported in the eleventh of the miscellaneous reports.

The twelfth project was the survey of the public lands in the State of Pennsylvania, which was completed in the month of June, and the results thereof are reported in the twelfth of the miscellaneous reports. The thirteenth project was the survey of the public lands in the State of Ohio, which was completed in the month of July, and the results thereof are reported in the thirteenth of the miscellaneous reports.

The fourteenth project was the survey of the public lands in the State of Indiana, which was completed in the month of August, and the results thereof are reported in the fourteenth of the miscellaneous reports. The fifteenth project was the survey of the public lands in the State of Illinois, which was completed in the month of September, and the results thereof are reported in the fifteenth of the miscellaneous reports.
