Notice of Intention to Gas Lift	X

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Midland, Texas, November 16, 1936

Following is a {notice of intention to do work} on land under {lease} described as follows:

New Mexico	Lea	Hobbs
(State or Territory)	(County or Subdivision)	(Field)
Well No. <u>3</u>	<u>SW/4 of Sec. 29</u>	<u>12-3</u>
<u>4</u>	<u>SW/4 of Sec. 30</u>	<u>30-E</u>
	(1/4 Sec. and Sec. No.)	(Twp.) (Range) (Meridian)
The well is located <u>330 Ft. N</u> of S line & <u>330 Ft. E</u> of W line of Section 29		
The well is located <u>330 Ft. N</u> of S line & <u>330 Ft. E</u> of W line of Section 30		
The elevation of the derrick floor above sea level is _____ ft.		

DETAILS OF PLAN OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

To set high pressure separator at either Federal-Bowers "A" #3 or Federal Bowers "A" #4 or both with necessary gas regulators to supply gas at approximately 500 pounds working pressure for gas lift purposes. To install proper size tubing and necessary flow valves in Federal Bowers "B" #2, N. M. State "A" #2 and N. M. State "A" #3 to gas lift these wells with a minimum of gas. At the present time, N. M. State "A" #2 and N. M. State "A" #3 are produced by pumping and, unless authority is granted to gas lift Federal Bowers "B" #2, it will be necessary to place this well on the pump. It is believed that these wells can be produced with a gas fluid input ratio of under 500 cubic feet of gas per barrel of fluid. Authority is not requested to produce any well at greater than its prorated allowable.
