Gypsy Oil Company,
Robbs, New Mexico

Gentlemen:

Our Santa Fe office has requested that I get all "Reports on Results of Acid Treatment" up to date. Upon going thru the ACID File I find the following "Notices of Intention to Acid Treat" on which we have not received final reports:

WELL	DATE SUBMITTED
Graham-Plate #1	Apr. 20, 1934
" " #2	Feb. 7, 1934
East Grimes #1	Apr. 20, 1934
" " #2	Apr. 20, 1934
East " #1	Feb. 7, 1934
" " #2	Feb. 7, 1934

Please furnish us with the final report on these at your earliest convenience. In case you decided to not treat a well after you had submitted Notice; just make a report on the regular SG-106 form; stating that the well was not treated and that you wish the permit cancelled.

Very truly yours,

J. D. Hunter,
State Oil & Gas Inspector.
