1. The first part of the report is a general introduction to the project. It describes the purpose of the study, the objectives, and the scope of the work. It also provides a brief overview of the methodology used in the study.

2. THEORETICAL BACKGROUND

The theoretical background of the study is based on the principles of the scientific method. It involves the formulation of a hypothesis, the design of an experiment, the collection of data, and the analysis of the results. The theoretical background also includes a discussion of the relevant literature and the theoretical framework used in the study.

The theoretical background is divided into two main sections. The first section discusses the theoretical framework used in the study. The second section discusses the relevant literature and the theoretical framework used in the study.
