

NEW MEXICO STATE LAND OFFICE
OFFICE OF THE STATE GEOLOGIST
SANTA FE, NEW MEXICO

MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the State Geologist or proper Oil and Gas Inspector within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of water shut-off, result of abandonment of well, and other important operations, even though the work was witnessed by the State Geologist or Oil and Gas Inspector. Reports on minor operations need not be signed and sworn to before a notary public, but such operations should be witnessed by an Oil and Gas Inspector if possible.

Indicate nature of report by checking below:

| | | | |

REPORT ON THE STATE OF THE
UNION
FOR THE YEAR 1900

MISCELLANEOUS REPORTS ON WELLS

The following reports are submitted to the State Board of Geology and Mineral Resources for the year 1900. They are the result of the work of the various divisions of the Board, and are intended to give a general view of the progress of the work during the year. The reports are arranged in alphabetical order of the names of the divisions.

The first report is on the work of the Division of Geology. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress. The second report is on the work of the Division of Mineral Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress.

The third report is on the work of the Division of Water Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress. The fourth report is on the work of the Division of Forest Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress.

The fifth report is on the work of the Division of Fish and Game Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress. The sixth report is on the work of the Division of Marine Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress.

The seventh report is on the work of the Division of Botanical Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress. The eighth report is on the work of the Division of Zoological Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress.

The ninth report is on the work of the Division of Palaeontological Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress. The tenth report is on the work of the Division of Historical Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress.

The eleventh report is on the work of the Division of Archaeological Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress. The twelfth report is on the work of the Division of Ethnological Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress.

The thirteenth report is on the work of the Division of Anthropological Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress. The fourteenth report is on the work of the Division of Linguistic Resources. It gives a general view of the progress of the work during the year, and includes a list of the various projects which have been completed or are in progress.
