This work will be permitted upon the conditions:

THAT

You will use every possible precaution to protect the packer seat in view of the possibility of setting a packer at a later date as a corrective measure.

The responsibility of this work rests upon the operator.

If this method fails to get results toward the lowering of the gas/oil ratio you will do other corrective work at such time as it is deemed necessary.

You will notify this office 12 hours prior to the actual running of the acid.
