Re: S. P. Johnson #1-L, 5-18-39 SWD

Gentlemen:

According to our records, an application was submitted by S & M Oil Company, Inc., to pull the tubing and packer on the above referenced well in order to repair leaks.

We do not have any record showing what repairs were done, or where the packer was set when the tubing was run back into the well.

Please furnish us with the information as soon as possible.

Ann Taylor owns the S. P. Johnson #2-M in Section 5, Township 18 South, Range 39 East. This well is currently shut in due to excessive water production.

When we receive the information on the repairs to your well, we will study them to determine whether or not it will be necessary to run a tracer survey on this well.

Very truly yours

OIL CONSERVATION DIVISION
