An "Amended Report" of intention to plug this well was approved by the New Mexico Oil Conservation Commission on July 11, 1958. A cement plug was set from 25 feet to top of 5-1/2-inch casing with 5 sacks of regular cement and a marker installed on August 14, 1958. The location was inspected by Mr. John Runyan of your office as per your letter of November 17, 1958. A Form C-103, Report of Final Plugging, was not filed in order that we could hold the well for a possible salt water disposal well.

Please classify this well as permanently abandoned.
