13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

Subject well permitted as an injection well. Well was shut-in on 10/15/98. XTO Energy Inc. proposes the following remedial work: MI & RU well service unit. POH with all injection equipment. Clean out hole with bit and scraper. RIH with packer and RBP. Test casing integrity. Well will remain shut-in until a complete economic evaluation is made. After evaluation, repairs will be made to return the well to injection or if well is deemed uneconomical to repair, a Sundry Notice will be filed to plug and abandon well. Proposed work on well is estimated to start around January 7, 2002. XTO requests that continued shut-in status be maintained until evaluation has been completed.
