OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

State - A

Well No. 2

in NE/4 SW/4 NE/4

of Sec. 32, T. 18S, R. 38E, N. M. P. M. Hobbs, Field,
County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Shell-State A-2 is an excess well and as such as been shut in since January 1943. The well has the gas zone in top porous zone open to the casing and the well is standing with a shut in casing pressure of 850 pounds. As the casing nipple is in an advanced stage of corrosion there is danger of this nipple failing, resulting in a serious blowout. It is proposed therefore to mud the well, set a bridging plug at approximately 3905 feet, approximately 45 feet up in the casing, spot approximately 20 feet of cement on top of the bridging plug, pull tubing and leave the casing shut in with the casing full of mud.

Approved _____, 19____
except as follows:
