May 5, 1931

D. C. Crowell & Co., Gen'l Agts.,
The Employers' Group,
106 South Stanton Street,
El Paso, Texas.

Gentlemen:

This is in further reply to your letter
of April 14th, 1931 with reference to Bond No.
SY-38740 of the Hobbs High Incorporated.

I have just received a report from Mr.
Jas. P. Sullivan, State Oil & Gas Inspector on this
well. He states that the well was plugged satis-
factorily in December. However, a number of things
remain to be done before the bond can be finally
released. The rig should be removed, the cellar
should be leveled off and the proper marker left.
As soon as this done and we have notification from
Mr. Sullivan to this effect, the bond can be re-
leased.

Very truly yours,

E. H. Wells,
State Geologist

U. S. Gravel & Co., Gen'l. Agts.,
The Gravelers' Group,
116 North Main Street,
Dallas, Texas.

Enclosed:

This is in further reply to your letter
of April 14th, 1931 with reference to Bond No.
U-Y-32740 of the Hobbs High Incorporated.

I have just received a report from Mr.
Jas. P. Sullivan, State Oil & Gas Inspector of this
State, dated March 11th, 1931, in which he states
that in December, 1929, a number of things
remain to be done before the bond can be finally
released. The risk should be removed, the cellar
should be leveled off and the proper marker left.
As soon as this done and we have notification from
Mr. Sullivan to this effect, the bond can be re-
leased.

Very truly yours,

W. P. Sullivan,
State Oil & Gas Inspector
