Hobbs, N. M.      April 23, 1935.

Mr. F. J. Vesely, State Geologist, Oil & Gas Insp.  
 Santa Fe, N. Mex.      Carlsbad, N. M.

Following is a notice of intention to do certain work as described below at the \_\_\_\_\_  
Shell Petroleum Corp. Lizzie Rice Well No. 1 in SE<sup>1</sup> SE<sup>1</sup>  
 of Sec. 13, T. 18S, R. 37E, N. M. P. M., Hobbs,  
 Oil Field, Lea County.

### DETAILS OF PROPOSED PLAN OF WORK

Shell Rice #1 in its present status is uneconomic to operate as it is producing 90% water. It is therefore proposed to attempt to eliminate water by setting a packer in one of two impervious horizons located in the hole. The section above the lower impervious horizon at 4107 will be tested first. The section below this point will then be tested if the upper horizon is water bearing. If water is found on both these tests the section above the upper impervious horizon at 4050-4065 will be tested. When water is eliminated if possible and the well appears to be weak it will be treated with 2000 gallons of acid to stimulate flow.
