Re: Application for Dual
Tubingless Completion State
of New Mexico "AB" (NCT-1)
Well No. 5, Lea County,
New Mexico

ATTENTION: Mr. A. L. Porter, Jr.

Gentlemen:

Attached is TEXACO's Application for dual Tubingless Completion for the State of New Mexico "AB" (NCT-1) well No. 5, located 1650 feet from the south line and 1650 feet from the east line, Unit J, Section 6, T-18-S, R-35-E, Lea County, New Mexico. TEXACO plans to complete this well as a dual tubingless oil completion in the Vacuum-Abo, and Vacuum-Drinkard Pools. It is anticipated that all zones will be oil completions and will flow initially. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in other wells in this area.

Also attached is a copy of the plat showing the area immediately surrounding TEXACO's State of New Mexico "AB" (NCT-1) Lease and a diagrammatic sketch of the proposed dual tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
