Texaco Inc.
Drawer 728
Hobbs, New Mexico

Attention: Mr. J. G. Blevins

Gentlemen:

Reference is made to your letter of October 24, 1963, requesting authority to complete your State of New Mexico "AE" Well No. 14, located 990 feet from the North line and 1980 feet from the East line of Section 11, Township 18 South, Range 34 East, Lea County, New Mexico, as a tubingless completion in the Vacuum (Abo Reef) Pool.

It is our understanding that you will equip said well with 2 7/8-inch casing set at approximately 8950 feet, cemented with sufficient cement to tie back into the intermediate casing. Perforations will be from approximately 8800 to 8900 feet in the Abo Reef formation. Inasmuch as no corrosion problem is expected and adequate measures will be taken to counteract the expected paraffin deposition, the above installation is hereby approved.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director
