17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Please change the status of subject well from pumping to SI-0 (Shut In-Oil) effective 9-11-74.

Subject well is presently shut in due to parted power oil tbg stuck in the hole. Repeated attempts to fish this tbg have been unsuccessful & any further attempts would not be economical. This well is currently under investigation to determine if sidetracking operations to return this well to production would be economical. If this work is found to be uneconomical the well will be plugged and abandoned. The approximate date any anticipated work will commence is the 1st quarter of 1975.

Expires 10/1/75
