Attention: Mr. H. D. Raymond

Gentlemen:

Reference is made to your letters of January 28 and February 12, 1964, wherein you request authority to complete your State of New Mexico "AC" Well No. 8 and your State of New Mexico "AA" (NCT-4) well No. 2 located in Unit O of Section 2 and Unit A of Section 10, respectively, Township 18 South, Range 34 East, Vacuum (Abo-Reef) Pool, Lea County, New Mexico, as single tubingless completions with 2 7/8-inch casing set at approximately 9,050 feet in each well. Sufficient cement will be used to bring the top of the cement back into the intermediate casing in each case.

Inasmuch as no corrosion is expected and adequate measures will be taken to counteract the anticipated paraffin deposition, the Oil Conservation Commission hereby approves both tubingless completions.

Very truly yours,

A. L. Porter, Jr.
Secretary-Director
