Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.

USA HUDSON NO. 1 WELL
JUNE 11, 1981

1. Existing Roads - See Attachment 1.
2. Existing Wells - See Attachment 1.
3. Power Distribution Lines - A primary distribution line already exists in Section 6, Township 19 South, Range 32 East. A secondary distribution line will be run from this primary line to the USA Hudson No. 1 Well. In running this line, no lease or unit boundaries will be crossed. This secondary line will be made up of three 330' spans. Four poles will be set at a height of 25' from ground level. The height of the secondary distribution line at mid-span will be 18'. The poles will extend 5' into the ground.
4. Source of Construction Materials - No construction material will be removed from public lands.
5. Plans for Restoration of the Surface - There will be no blading in the area. Therefore, no restoration in the area will be required. When this lease is abandoned, all electrical poles will be removed.
