Re: Application for Single Tubingless
Completion, State of New Mexico "L"
Well No. 7, Vacuum (Glorieta) Pool,
Lea County, New Mexico

ATTENTION: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. respectfully requests administrative approval of an exception to New Mexico Oil Conservation Commission Rule 107 (e) for its State of New Mexico "L" Well No. 7. This well is a proposed single tubingless completion in the Vacuum (Glorieta) Pool, and is located 760 feet from the north line and 560 feet from the east line of Section 1, T-18-S, R-34-E, Lea County, New Mexico.

The production casing string will consist of 2-7/8" O. D. tubing set at approximately 6750 feet in a 7-5/8 inch hole. Completion will be through perforations from approximately 6100 feet to 6120 feet in the Glorieta formation.

This zone has been approved by the New Mexico Oil Conservation Commission as a tubingless completion in other multiple completions in this area. An instance is Order No. MC-1435, TEXACO Inc., State of New Mexico "O" (NCT-1) Well No. 15.

Attached is a diagrammatic sketch of the proposed tubingless completion and a plat showing the location of all wells on the State of New Mexico "L" Lease and all offset wells along with the name and addresses of all offset operators. A copy of this request is being sent this date to all offset operators by registered mail.

Your early consideration of this request would be greatly appreciated.

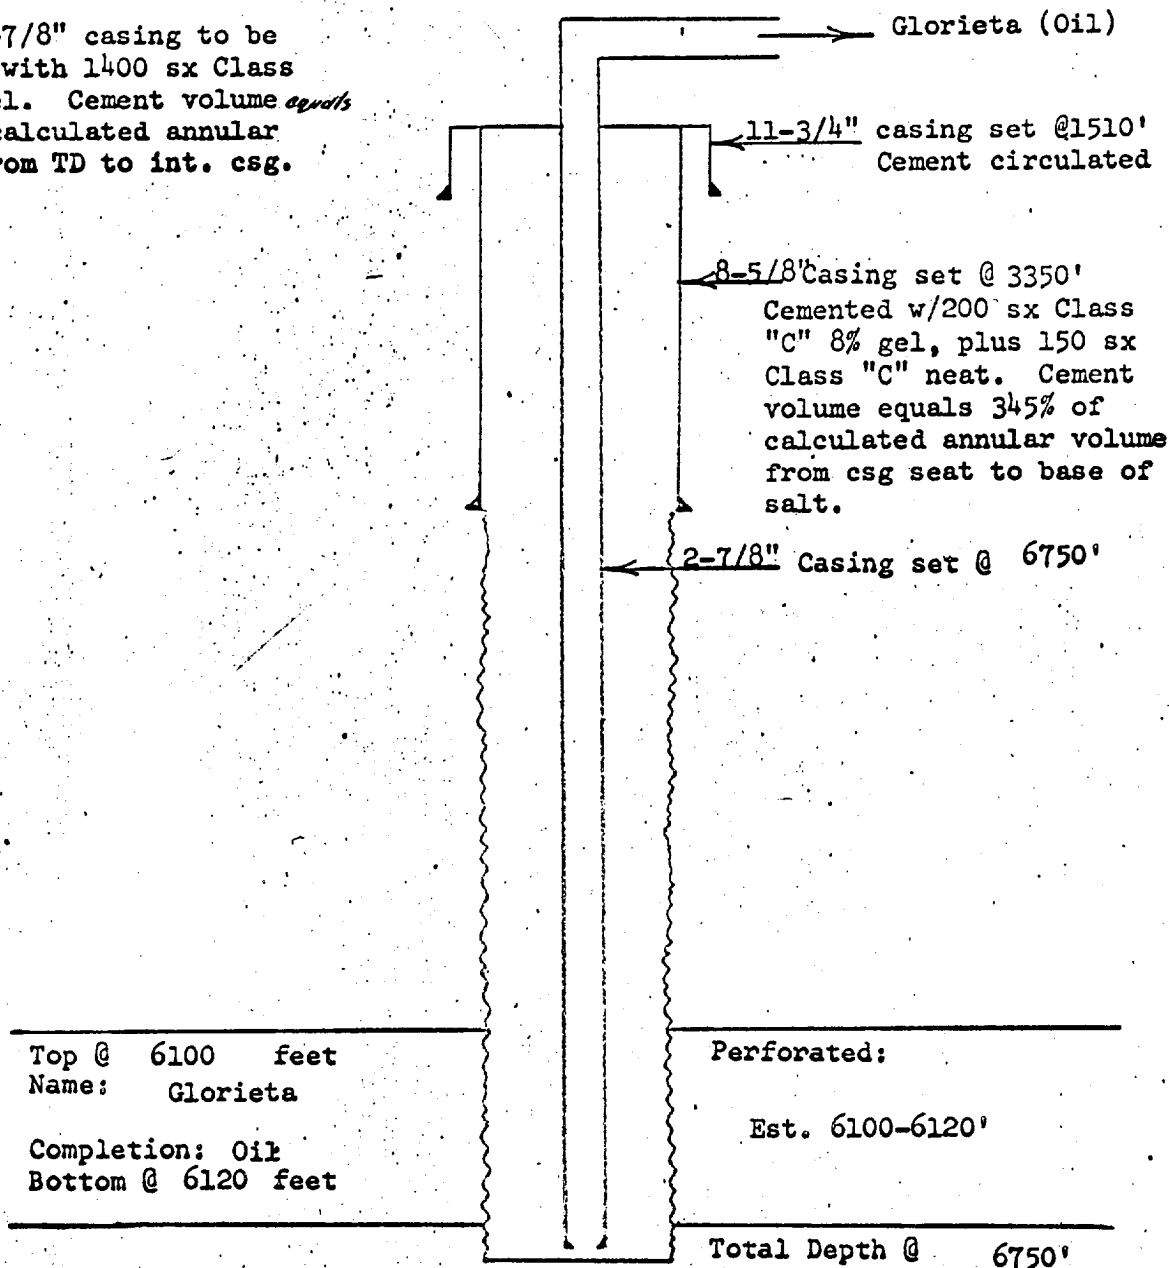

Yours very truly,

H. D. Raymond
