Attention: Mr. J. G. Blevins, Jr.

Gentlemen:

Reference is made to your letter dated October 30, 1964, wherein you request authority to complete your State of New Mexico "L" Well No. 9 located 1650 feet from the North line and 660 feet from the East line of Section 1, Township 18 South, Range 35 East, Lea County, New Mexico, as a tubing-less completion in the Vacuum-Glorieta Pool.

It is our understanding that 2 7/8-inch casing will be set at approximately 6850 feet and perforated from approximately 6100 to 6120 feet in the Glorieta formation. Sufficient cement will be used to come back into the intermediate casing string.

Texaco Inc. is hereby authorized to complete the subject well in the aforesaid manner.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director

Re: Application for Single Tubingless  
Completion, State of New Mexico  
"L" Well No. 9, Vacuum (Glorieta)  
Pool, Lea County, New Mexico.

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. respectfully requests Administrative approval of an exception to New Mexico Oil Conservation Commission Rule 107(e) for the State of New Mexico "L" Well No. 9. This well is a proposed single tubingless completion in the Vacuum (Glorieta) Pool, and is located 1650 feet from the north line and 660 feet from the east line of Section 1, T-18S, R-35E, Lea County, New Mexico.

The production casing string will be 2-7/8" O.D. set at approximately 6850 feet in a 7-5/8" hole. Completion will be through perforations from approximately 6100 to 6120 feet in the Glorieta Formation.

It is anticipated that this completion will flow initially and that no severe corrosion or paraffin problems will be encountered.

This zone has been approved by the New Mexico Oil Conservation Commission as a single tubingless completion in this area. An instance is the State of New Mexico "O" (NCT-1) Well No. 15, Order MC-1435.

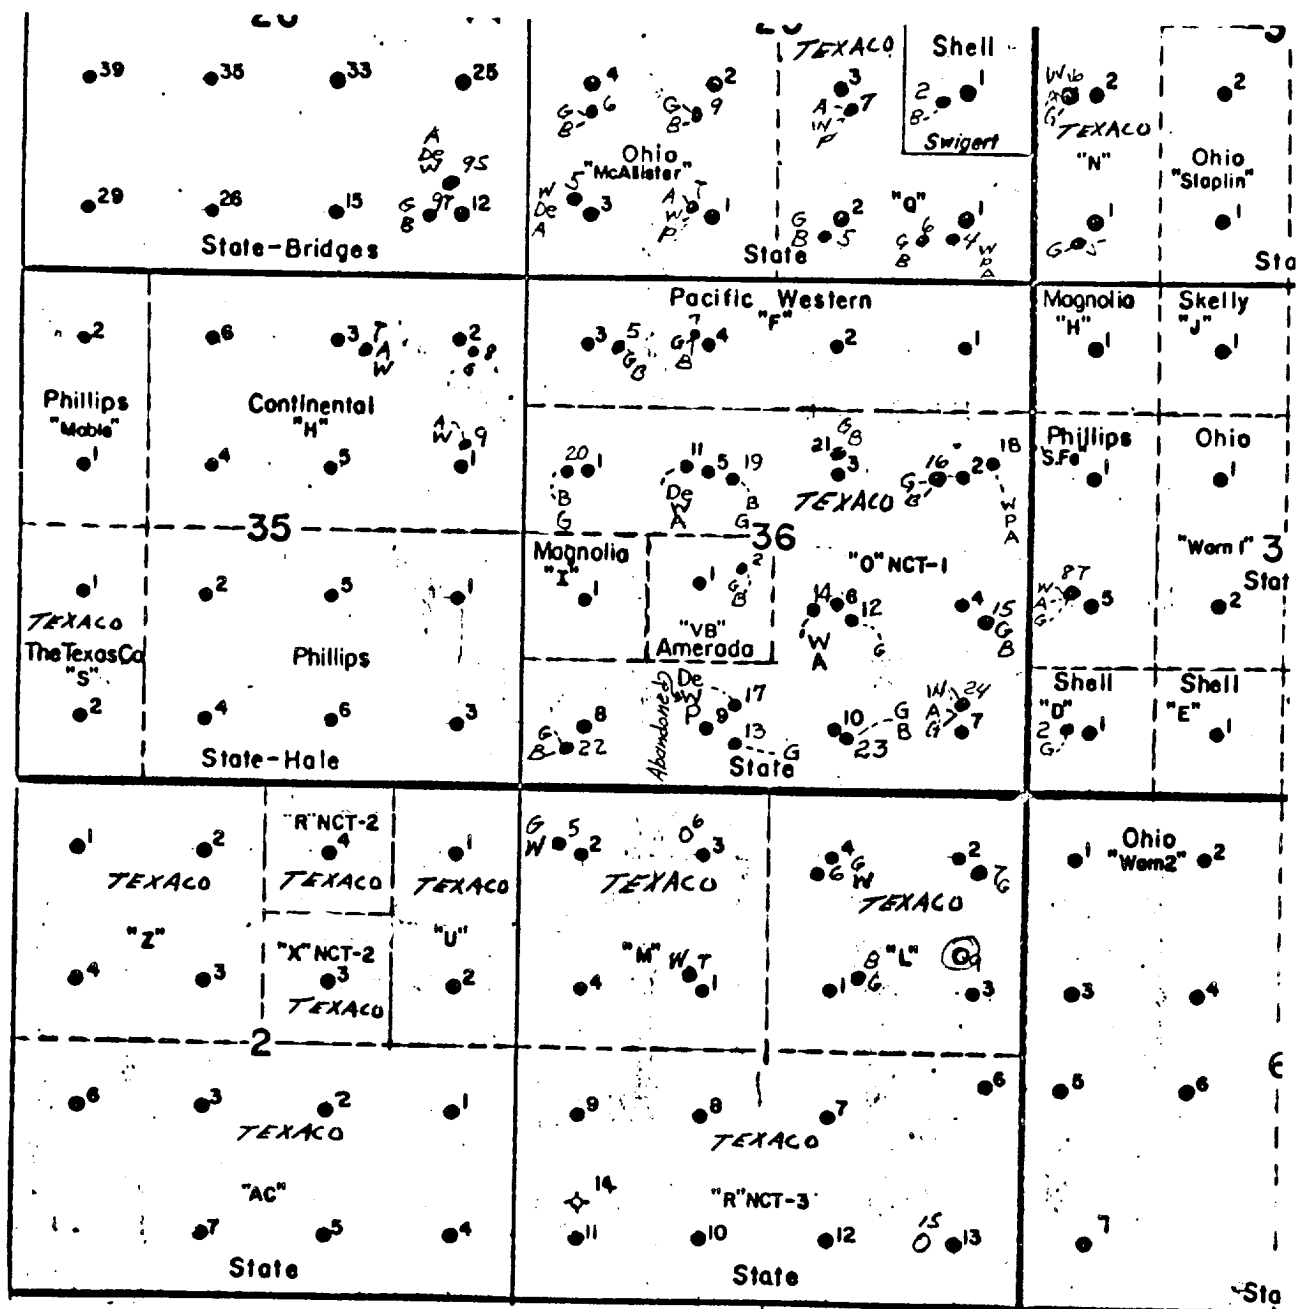

Attached is a diagrammatic sketch of the proposed tubingless completion and a plat showing the location of all wells on the State of New Mexico "L" Lease and all offset wells along with the names and addresses of all offset operators. A copy of this request is being sent by registered mail to all offset operators.

Your early consideration of this request would be greatly

Yours very truly,

J.G. Blevins, Jr.  
Assistant District Superintendent
