Re: Aztec Uncle Well No. 1

Dear Sir:

Since my letter of March 28, 1966, concerning the captioned well, Mobil Oil Company has informed us that they wish to join us with their W/2 of the NW/4 (80 acres) to make a 320 acre gas unit.

Enclosed is a plat of the well showing the acreage assigned; therefore, all we need is an application for a non-standard location and I am under the impression that this can be handled by your office.

We have made a gas contract with Southern Union Gas Company and they have informed us that they will have us connected within the next 10 days.

If there is any other information that you need, please let us know.

Very truly yours,

L. R. FRENCH, JR.

David H. Donaldson
