2

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

The second part of the report is a detailed description of the methodology used in the study. It includes a description of the sample, the data collection methods, and the statistical analysis techniques used.

The third part of the report is a discussion of the results of the study. It compares the findings with the objectives of the study and discusses the implications of the results.

The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study and provides recommendations for future research. The references list the sources of information used in the study.

The fifth part of the report is a list of appendices. These include the raw data, the statistical analysis results, and other supporting materials.

The sixth part of the report is a list of figures and tables. These include the graphs, charts, and tables used to present the data.

The seventh part of the report is a list of footnotes. These provide additional information about the study and the sources used.
