Re: Exception to Rule 402

Gentlemen:

As requested in your July ~~16~~<sup>25</sup>, 1986, letter and for the reasons outlined therein, the well listed below will be exempt from the shutin pressure test requirement of Division Rule 402. This exemption is being made on a non-expiring basis pending workover or shut in of the well.

SOUTH CORBIN-MORROW GAS POOL

Hudson 29 Federal No. #1-B Sec. 29, T18S, R33E

You had requested an exception for your Gulf Fed Com #2 which is located in Eddy County. We will be unable to make this exception from this office, but we will forward your letter on to our Artesia Office and they should respond to your request.

Very truly yours,

OIL CONSERVATION DIVISION

Lea County, New Mexico

Dear Mr. Sexton:

Pennzoil Company respectfully requests exception to N.M.O.C.D. Rule 402 for both the Gulf Federal No. 2 and Hudson 29 Federal No. 1 wells. The Strawn formation is the upper completion in the dual Gulf Federal No. 2 gas well. It has been shut-in since October, 1983, and is considered depleted. The Morrow formation is the lower completion in the dual Hudson 29 Federal No. 1 well. It has been shut-in since March, 1980, and is considered depleted. Thank you for your consideration.

Sincerely,

PENNZOIL COMPANY

  
J. Howard Moore
