Re: Revised Acreage Dedication Plat  
Hudson "29" Federal No. 1-B  
South Corbin Wolfcamp Pool

Dear Mr. Sexton:

Pennzoil has requested from the Bureau of Land Management information as to the application process to suspend production requirements from this stripper well. Pennzoil intends to leave this Wolfcamp completion shut-in, pending either a workover or a recompletion to the Bone Spring later this year. The allowable for this well can, therefore, be cancelled.

Thank you for your cooperation in this matter.

Yours very truly,

PENNZOIL COMPANY

Re: Revised Acreage Dedication Plat  
South Corbin Wolfcamp Pool

Gentlemen:

Temporary special rules were established by Division Order R-8181-B for the South Corbin Wolfcamp Pool effective May 20, 1986. You were advised of this by our letter of June 10, 1986. This letter also requested that you submit a revised C-102 dedicating 80 acres to your Hudson 29 Federal #1-B in Sec 29, T18S, R33E.

This order allowed 60 days for you to comply with this provision and as of this date we have not received a revised Form C-102 for this well. Unless we have received a plat dedicating 80 acres to this well by August 8, 1986, your allowable will be reduced to one-half of a standard allowable. If you do not have 80 acres to dedicate, you will need to obtain approval of a non-standard proration unit.

Very truly yours,
