| Actual Section Location: <b>2145</b> feet from the <b>N</b> end of the <b>100</b> foot line <b>E</b> line |                       |                       |                       |                      |
| Bound, pooled flow.                                                                                       | Producing formation   | Designated Acreage:   |                       |                      |
| <b>-</b>                                                                                                  | <b>Ogallala</b>       | <b>Undesignated</b>   | <b>6.25</b>           | <b>Acres</b>         |

1. Outline the acreage dedicated to the subject well by corner or by reference marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation: \_\_\_\_\_

If answer is "no," list the owners and tract descriptions which have not been consolidated. (Use reverse side of this form if necessary.) \_\_\_\_\_

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a satisfactory unit plan has been approved by the Commission.
