

STANDARD OIL COMPANY OF TEXAS

3610 Avenue S

Snyder, Texas

August 21, 1969

New Mexico Oil Conservation Commission
P. O. Box 1980
Hobbs, New Mexico 88240

Gentlemen:

In compliance with Order No. R-3811, approving 80 acre proration units in the Hobbs Drinkard Pool and setting well locations within 150 feet of the center of a quarter-quarter section, we wish to advise you that Standard Oil Company of Texas well State 1 No. 5, completed as a dual Blinebry-Drinkard well, is an unorthodox location with respect to the spacing rules for the Drinkard Pool. We respectfully request that an exception to the spacing regulations be granted for the State 1 No. 5, located 330' from south line and 2218' from east line of Section 29, Township 18 South, Range 38 East, Lea County, New Mexico.

Attached are revised Forms C-102 for the subject well outlining dedicated acreage for both the Blinebry and Drinkard formations.

Yours very truly,

T. D. Cramer
District Production Superintendent
