Santa Fe, New Mexico 87501

Re: Case Number 4875

Dear Mr. Porter:

In reference to Case Number 4875 that was set for hearing on December 19th and was delayed upon our request of December 15, 1972, ESH Corporation respectfully requests that the application and case be dismissed. Since we were not able to work out a satisfactory agreement with Amerada Hess Corporation, we have presently abandoned our plans to convert the well to a saltwater disposal well and the well will be plugged and abandoned.

Thank you for your assistance.

Sincerely,

Gordon G. Marcum, II

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in financial reporting.

2. Objectives of the Study

The primary objective of this study is to analyze the impact of various factors on the performance of the organization.

The study aims to identify the key drivers of success and failure, and to provide recommendations for improving overall performance. The research is based on a comprehensive review of existing literature and data analysis. The findings will be used to inform strategic decision-making and to develop effective interventions.

The study is structured as follows:

3. Methodology

- Data Collection: The data was collected from various sources, including internal records, external reports, and interviews with key personnel.
- Data Analysis: The data was analyzed using statistical methods to identify trends and correlations.
