1. The first part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The letter discusses the proposed creation of a new national park, the Grand Staircase-Escalante National Monument, in southern Utah. The Secretary expresses his support for the proposal and provides a detailed description of the area, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

2. The second part of the document is a letter from the President to the Secretary of the Interior, dated June 1, 1947. The President expresses his approval of the Secretary's recommendation and authorizes the Secretary to proceed with the creation of the monument. He also expresses his confidence in the Secretary's ability to carry out the task.

3. The third part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

4. The fourth part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

5. The fifth part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

6. The sixth part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

7. The seventh part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

8. The eighth part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

9. The ninth part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.

10. The tenth part of the document is a letter from the Secretary of the Interior to the President, dated June 1, 1947. The Secretary provides a detailed description of the proposed monument, including its size, location, and natural features. He also mentions the potential for scientific research and recreational activities in the area.
