Mr. Joe D. Ramey, Supervisor
State of New Mexico
Oil Conservation Commission
Post Office Box 1980
Hobbs, New Mexico 88240

Dear Mr. Ramey:

Referring to your letter of March 12th concerning our from C-104 for an allowable on our Cinco de Mayo No. 3 located in Unit D of Section 24, T-18-S, R-32-E, we do not have any deviation survey on this hole since it was drilled by cable tool and it was impossible to run such a survey on wireline.

If this does not clear up this question, please advise on what procedures we should follow to secure allowable for this well.

Yours very truly,

BURLESON and HUFF

Lewis B. Burleson
