Status Report

☒(NOTE: Report results of multiple completion on Well  
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

U.S.G.S. letter of March 21, 1978, requested present status of well plus plans for well.

Form 9-330 Well Completion Report was mailed to you March 17, 1978, along with Schlumberger logs. This report showed well perforated 5032-62', acidized and swabbed 100% salt water.

Southland Royalty Company is preparing to file with New Mexico Oil Conservation Commission request to convert this well to a salt water injection well to inject salt water produced from the West Corbin lease into present perforations.

18. I hereby certify that the foregoing is true and correct
