

#5 Location and Type Water Supply (continued):

- C. If water well is to be drilled on lease, so state. No APD for water well is necessary, however, unless it will penetrate potential hydrocarbon horizons:

None Anticipated

#6 Source of Construction Materials:

- A. Show information, either on map or by written description:

Material from B.L.M. quarry Section 15, T19S, R32E.

- B. Identify if from Federal or Indian Land: Federal

- C. Describe where materials, such as sand, gravel, stone, and soil material are to be obtained and used:

See 6-A above.

- D. Show any needed access roads crossing Federal or Indian Lands under Item 2:

See Map "B". All access is on B.L.M. land.

#7 Methods of Handling Waste Disposal:

Describe methods and location of proposed containment and disposal of waste material, including:

- (1) Cuttings: Reserve Pit
- (2) Drilling Fluids: Reserve pit - primary reserve pits will be lined with four (4) mil plastic.
- (3) Produced Fluids (oil, water): Storage Tanks
- (4) Sewage: Porta Potty
- (5) Garbage and other waste material (trash pits should be fenced with small mesh wire to prevent wind scattering trash before being burned or buried):

To be contained in a trash pit for burial at completion of well.

- (6) Statement regarding proper clean-up of well site area when rig moves out:

At the completion of drilling, the site and surrounding area will be cleaned up and all burnable material will be put in the burn pit and burned. All foreign material will be buried.

#8 Ancillary Facilities:

Identify all proposed camps and airstrips on a map as to their location, area required, and construction methods. (Camp center and airstrip center lines to be staked on the ground).
