13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The subject well was temporarily abandoned in November, 1995, after a procedure to plug the Wolfcamp and recomplete to the Bone Springs (all production equipment was pulled and a 2000' kill string was run in the hole). As such, Altura requests TxA Status for the well. If granted, the well will be pressure tested and a 3160-5 (Subsequent Report) will be submitted accordingly. Additionally, the well is currently undergoing evaluation for possible future utility.
