SUBJECT: Wessely Energy Corporation and Drilling  
State 11-1 Lease # LG-4772 located at

P-Section 11-T 18S- R 37E Lea County

Dear Mr. Sexton:

Mr. Terry Stahl, Wessely Energy Corporation, has asked me to contact you regarding the marker to be placed on the dry hole at the above location. Since this well location is very close to the active facility on the Hobbs Air Base, I do not feel it is necessary to have the standard four (4) foot high pipe marker over this dry well. The City will be in agreement with the request from Wessely Energy for trimming the casing off about three (3) feet below the ground level and welding a permanent cap over the hole. The ground should then be restored to its natural condition.

Please contact me if you feel we need to discuss this matter.

Sincerely yours,

CITY OF HOBBS, NEW MEXICO
